Zanzibar is a charming place. The beaches are white and endless, tides offer incredible landscapes and colors always different. The African sunsets are a sight of rare beauty.

The northern part of the island is full of fantastic dive sites within easy reach, the perfect place for divers of all levels. The backdrops are gorgeous and rich of underwater life.

# DIVE SITES

## **MNEMBA ATOLL AREA (full-day boat trip for both Snorkelers and Divers)**

Most of divers and snorkelers are attracted to the Mnemba Atoll, being a marine protected area and a charming spot with amazing underwater marine life. Reefs are home to a wide variety of animals, from the tiniest shrimp to huge turtles. You will have the chance to easily spot two rare animals: the dragon moray eel and the Djibouti Spanish dancer, the world's largest nudibranch.

## **TUMBATU AREA (half-day boat trip for both Snorkelers and Divers)**

It is a half an hour sailing trip on board of our traditional Dhow to get you to the wonderful island of Tumbatu. The island is surrounded by a ring-shaped coral reef where you can dive or snorkel. You may see majestic turtles, giant groupers, morays, rays, dozens of colourful sea slugs, and much more... Including the giant and sociable whale shark.

## **LOCAL AREA (half-day for Divers)**

There are lots of dive sites for divers at all levels that you can reach in 5/30 minutes with our dhow.

## **NIGHT DIVES**

Night diving is one of the most amazing experiences you should definitely try: the night increases the mystery and surprises with what that the Ocean has in store for us. Everything is more beautiful, charming and full of colours and emotions at night time.
